

Registration master thesis

Note for students: Please note the examination regulations of the MAGQS, especially §21. You register the master thesis exclusively via this form at the examination office Master Gender & Queer Studies (preferably via e-mail: pruefungsamt-erziehungswissenschaft@uni-koeln.de). The registration and booking in KLIPS will be carried out by the examination office. After this registration you will receive a written confirmation with the topic, registration date and examiners. From this date on, the maximum processing time is 24 weeks. The topic can be changed once within two weeks. The Master's thesis must be submitted to the Examinations Office in due time in triplicate - two printed and firmly bound copies and one read-only electronic version.

The following applies to the choice of supervisors/examiners for your master's thesis: In principle, the examiners must be employed (i.e. no temporal lecturers) at one of the three universities involved in the MAGQS (Universität zu Köln, Technische Hochschule Köln, Hochschule für Musik und Tanz Köln) and have at least a doctoral degree. One of the two examiners must be a person with a habilitation / professor. First, check the "Liste der Prüfungsberechtigten für die Abnahme einer Abschlussarbeit im Master Gender & Queer Studies" (available from the Examinations Office). In exceptional cases, you can submit a substantiated request for a person who is not yet on the list of authorized examiners to act as an examiner for your master's thesis (cf. "Beantragung der Prüfungsberechtigung für Abschlussarbeiten im Masterstudiengang Gender & Queer Studies", available from the Examinations Office). You will receive a reply from the Examinations Office as soon as possible; in case of approval, you can then register your master's thesis using this form. There are no specifications regarding the ordering of the first and second examiners.

Student name: _____
